

# INDEX

# Index

(Only the main text has been indexed and only those cases that are the subject matter of this volume or those related cases that have had an impact on the development of the law of riparian boundaries. In this Index, as in the text, the word State is capitalized when referring to a nation; otherwise it is lowercased. References are to pages.)

## A

- Abstention, doctrine of, 263  
Accession, 265  
Accretion, effect on boundaries, 101  
Accuracy in water boundaries, 176  
Act of Mar. 2, 1799, 145  
Act 33 (Louisiana), 130  
Adams, Rear Adm. Kenneth T., 60, 152  
Agreement, interim, United States and Louisiana, 130  
Aids to navigation, visibility of, 274  
Airspace, 249  
Alabama  
  Boundary, seaward, 132  
  Rights under Submerged Lands Act, 149  
*Alabama* decision (1960), 143  
*Alabama v. Texas*, et al.  
  Comment, 128  
  Constitutionality of Submerged Lands Act, 127-128  
  Dissenting opinions, 128  
  Doctrine, 129  
  Compared with *United States v. Texas*, 129  
Alaska, continental shelf, area, 181  
Alexander, Lewis M., 75, 216  
American Revolution, effect on tidelands ownership, 5  
Amicus brief in *People v. Stralla*, 51, 58  
Anchorage. *See* Roadstead.  
*Anglo-Norwegian Fisheries* case. *See* *United Kingdom v. Norway*.  
Anglo-Venezuelan Treaty of Feb. 26, 1942, 187  
Arcs-of-circles method, 72-73, 171. *See also* Envelope line.  
  Rejection in *Fisheries* case, 75  
Area east and west of Mississippi delta, 175.  
  *See also* Low-water line survey of Louisiana coast.  
*Arkansas v. Tennessee*, accuracy in riparian boundaries in, 176  
Atchafalaya Bay, 108, 175  
  Changes in, 109  
  Reef in mouth of, 109  
Atchafalaya Bay area, 178-180. *See also* Low-water line survey of Louisiana coast.  
Atchafalaya River, 179  
"At the time of admission"  
  Meaning of, 140  
*Attorney-General v. Chambers*  
  Leading English case on "ordinary high-water mark," 92  
Au Fer, Pt., 178

## B

- Barents Sea, 183  
Bartley, Ernest R., 13  
Baseline(s)  
  As boundary of inland waters, 27  
  As takeoff line for measuring sea zones, 28  
  At artificial harbors, 60  
  Effect of offshore islands, 77  
  First Geneva Conference, 212-217. *See also* Baseline(s) (Geneva convention).  
  Importance in sea boundaries, 212  
  In international law, 27-30  
  Normal, 28  
  Consideration by ILC, 212

## Baseline(s)—Continued

- Straight, 30, 68
  - Applicability of, 30
  - Consideration by ILC, 213
  - Extension to southern coast of Norway, 75
  - Inception of, 30
  - In international law, 71
  - Limitation on length, 72
  - Limitations on use, 70-71, 73-74
  - Maximum length in *Anglo-Norwegian Fisheries* case, 68
  - United States position, 44, 161
- Baseline(s) (Geneva convention)
  - At rivers, 217
  - Normal, 212-213. *See also* fig. 24.
    - Tidal datum for, 212-213
  - Straight, 213-217. *See also* fig. 14.
    - Consideration of, 214
    - Criteria for drawing, 214-215
    - Criteria for use of, 214
    - Economic interests alone insufficient for use of, 214
    - Islands and use of, 214
    - Length of, 215-216
    - Limitations on use, 214
    - Low-tide elevations and, 215
    - Proposed formula for use of, 216
    - Status of waters enclosed by, 213, 216-217
- Baton Rouge, 168
- Bayard, Secretary Thomas F., 29
- Bayitch, S. A., 261
- Bay(s)
  - According to ILC, 218
  - As inland waters, 34
  - Boundary at, 32
  - Closing line at, 44, 47
  - Concept as inland waters, 33-42
  - Configuration and characteristics of, 32
  - Definition (common), 33
  - Definition (juridical), 47
  - Historic, 47-60. *See also* Historic bays.
  - In California Constitution, 51
  - Juridical, 223
  - Special characteristics of, 33
  - Ten-mile rule applied, 32
  - Ten-mile rule for, 43-44
  - True, 57
  - Wider than closing line, application of semicircular rule to, 223

## Bay(s) (Geneva convention)

- Area, 220-222
  - Computation, 220
- Baseline at entrance and *straight* baselines distinguished, 218
- Closing lines, 222-225
  - How drawn, 224. *See also* fig. 43.
  - Islands in entrance, 225. *See also* figs. 44 and 45.
  - Relationship to configuration, 224
  - 24-mile rule, 222
    - Application, 222-224. *See also* figs. 41 and 42.
    - Basis for adoption, 222
  - Definition, 218-219
  - Distinguished from mere curvature, 218
  - Formed by coasts of two or more States, 218. *See also* fig. 38.
  - Islands within, 220
  - Limitation on rules adopted, 218
  - Multimouthed
    - Area, 220
    - Closing line, 220-223. *See also* fig. 40.
    - Reduced area rule, 219
  - Semicircular rule
    - Application, 219
    - Origin, 219
  - Single-mouthed, area of, 220
  - Special case of baseline problem, 218. *See also* fig. 24.
  - Wider than 24 miles, 222-224
    - Closing line drawn independent of headlands, 224
- Bay(s), historic. *See* Historic bays.
- Bering Sea, 260
  - Demarcation line in, 256
- Bering Sea Fur Seal Arbitration, 260
- Bird Island, 109
- Black, H. C., 60, 152
- Black, Justice Hugo, 128, 132
- Boggs formula, 156
- Boggs, S. Whittemore, 37, 183, 224, 232
- Bonita Pt., 16
- Borax* case. *See* *Borax Consolidated, Ltd. v. Los Angeles*.
- Borax Consolidated, Ltd. v. Los Angeles*
  - Application to United States v. California (Special Master's proceedings), 98-99
  - Commentary, 96-97
  - Construction of a federal grant, 94
  - Doctrine, 95, 97

- Borax Consolidated, Ltd.—Continued  
 Influence of, 97  
 Landmark case in tidal boundary law, 94  
 Ordinary high-water mark defined, 94  
 Statement of case, 94  
 “Tidal Datum Planes” in, 94, 95
- Boundaries, exterior, 169  
 Conventional line, 170  
 Envelope line, 170–172  
 Replica line, 169–170
- Boundaries, historic state, 193
- Boundaries, lateral, 172–173  
 Basis, equitable, 172  
 Methods of drawing, 173, 235. *See also* fig. 48.  
 Principle of equidistance, 173
- Boundaries, riparian  
 Accuracy, 176  
 Effect of artificial changes, 119  
 Effect of natural changes, 119
- Boundaries, sea  
 Extended, 122  
 Hawaii, 228  
 International law in, 22–30  
 Lateral, 122. *See also* Boundaries, lateral.  
 Terminology in, 22  
 Three-dimensional character, 254–255.  
*See also* fig. 53.
- Boundaries, seaward  
 Gulf states, 131–132. *See also* under name of state.  
 Nation’s, 135  
 States’, 120–122  
 States’ versus Nation’s claims, 135  
 Subsequently admitted states, 167  
 Thirteen Original States, 167  
 Three-dimensional character, 254–255.  
*See also* fig. 53.  
 Under Submerged Lands Act, 118, 120, 121  
 Unilateral extension, 118
- Boundaries, state  
 Delimitation problems, 155  
 Power to fix, 135
- Boundaries, tidal  
 Definitions in early state decisions, 94  
 Demarcation, 89  
 Engineering aspects, 89  
 Findings of Special Master, 104  
 Reestablishment, 102
- Boundaries, water, accuracy in, 176
- Boundary at rivers, 62  
 Special Master’s findings, 62
- Boundary lines  
 Charting, 235–236  
 Difficulties in establishing, 9
- Boundary, maritime, 135
- Boundary of tidelands. *See* Tidelands.
- Boundary of upland, 89
- Boundary problems under Submerged Lands Act, 117
- Boundary through contiguous zone, 240
- Boundary through continental shelf, 253–254. *See also* Boundaries, lateral.
- Boundary through territorial sea, 230. *See also* Boundaries, lateral.  
 Consideration by ILC, 230–231  
 Delimitation methods available, 231  
 Equidistant-line delimitation, 231  
 Equitable delimitation, 230  
 Exceptional configurations, 232  
 Inequitable delimitation, 230. *See also* fig. 48.  
 Median-line delimitation, 231  
 Median-line departure, 231–232  
 Principle of equidistance, 230–231
- Bowditch, Nathaniel, 190
- Bowett, D. W., 271, 275
- Breadth of territorial sea  
 Consideration by First Geneva Conference, 241, 242  
 Consideration by ILC, 241  
 Consideration by Second Geneva Conference, 270–275  
 Implications of a 12-mile limit, 271–275  
 Coast Survey memorandum of Mar. 18, 1960, 273
