Dear Mr. Sumner:

Thank you for your recent correspondence suggesting that the NOAA Hydrographic Services Review Panel engage with the NSPS request for the Panel to examine the issue of licensure requirements for geodesy, hydrography and photogrammetry.

The Panel members discussed your request at our April 4-5, 2018, meeting in Miami, Florida and we have determined that the said subject is beyond the purview of the HSRP's authorized scope.

We trust that you will address this matter to some other suitably authorized entity.

A handwritten signature in blue ink that reads "J. E. Miller".

Joyce E. Miller
Chair, HSRP

A handwritten signature in blue ink that reads "Edward Saade".

Edward Saade
Vice-Chair, HSRP
