# **Topics**

The Panel will discuss topics related to navigation services and NOAA's hydrographic services, matters that affect marine transportation, safe navigation, commercial shipping, ocean and coastal stewardship, geospatial data, recreational boating, emerging Arctic priorities, and related topics.

The HSRP is a federal advisory committee that provides NOAA with independent advice on improving the quality, efficiency, and usefulness of NOAA's navigation-related products, data, and services. The HSRP advises the NOAA Administrator about its navigation (i.e. surveys, nautical charts and ENCs), physical oceanographic (i.e. tides & water levels), geospatial, positioning, and shoreline programs, products, and services.
