Federal Relay Conference Captioning (RCC) services a live relay captioning service that runs in a separate browser window than the event webinar and is available for both days of this webinar. You will need to click on each link for the appropriate day to get the closed captioning features. Please open in a separate browser from the go to webinar browser so you can see the closed captioning.

Title: NOAA HSRP Virtual Spring meeting, March 3-4, 2021
Teleconference #: 1 877 309 2074
Access Code: Shown after joining the webinar
Web Conference URL: https://attendee.gotowebinar.com/register/6060715212000442635

Notes: NOAA HSRP meeting webinar, March 3-4, 2021, meeting agenda: https://www.nauticalcharts.noaa.gov/hsrp/meeting-webinar-March-April-202...
Webinar: https://attendee.gotowebinar.com/register/6060715212000442635
Advance registration is recommended.

The meeting will focus on issues related to hydrographic and navigation services including topics affecting the NOS’ Office of Coast Survey, Center for Operational Oceanographic Products and Services, National Geodetic Survey, and the University of New Hampshire’s and NOAA’s Joint Hydrographic Center (JHC) and Center for Coastal Ocean Mapping. The HSRP advises the NOAA Administrator on matters that affect marine transportation, safe navigation, commercial shipping, ocean and coastal stewardship including sea level rise, resilience, flooding and inundation, coastal and marine spatial planning, geospatial and geodetic data, recreational boating, Arctic priorities, the National Spatial Reference System, the PORTS® system, tides and currents, mapping and surveying, and related topics.

The meeting will have a focus on resilience with 2 special sessions highlighting NOS’s data backbone - the products, technology, operations and systems - that support resilience including coastal modeling. There will be an update on the ocean and coastal mapping implementation plans for NOMEC, "Establishing a National Strategy for Mapping, Exploring, and Characterizing the U.S. Exclusive Economic Zone, June 2020", and the Alaska Coastal Mapping Strategy (ACMS) and other topics.
